NPIC/TSG/RED-232/70
25 September 1970

MEMORANDUM FOR: Executive Director, National Photographic
Interpretation Center

THROUGH : Chief, Technical Services Group, NPIC

SUBJECT : [] Relationship with the
[] Contract

1. In a past note, you expressed concern about the period of the relationship of [] with the [] effort, principally from the point of view of his career development. The following describes this association:

- a. [] contract initiated in the fall of 1966 - no [] association.
- b. Fall 1967 to February 1969 - [] was project monitor with Paul as an assistant.
- c. February 1969 to August 1969 - [] was project monitor (Paul was in the Career Training Program).
- d. [] became project monitor in September 1969 and continues that responsibility to date.

Therefore, Paul has been associated with the [] contract for about two and one-half years.

2. During the past four and one-half years, he has been associated with many other projects--a list of which is attached. It is planned that Paul will continue as the project monitor of the [] contract for the FY-71 effort, but will not have primary responsibility if a new continuation contract is awarded. At the present time, discussions are being held within the various Branches of RED concerning future assignments to begin planning the training for Paul in other technical areas. Investigation toward a replacement as project monitor for a future [] contract in this area is also on-going.

3. I hope this information suffices and our course of action meets with your approval.

[]
Chief, Research & Engineering Division, TSG

John -

[redacted] has been working on the [redacted] contracts for at least 4 yrs. While I realize that he is effective there and enjoys the assignment, I question the value to him and us of keeping him on that assignment much longer.

Please review that situation and let me know what you think about it.
